1. powered light fuel oil
2. Burner single stage (on / off)
3. The high-pressure atomizing fuel by the nozzle.
4. Ability to obtain optimal combustion conditions by regulating the air and head
5. The maintenance is not necessary to remove the entire flange, the burner can be easily removed.
6. Manual flow control
7. One flange and one insulating washer for connection to a heat exchanger
8. The air inlet manually adjustable deflector
9. Adjustable tube comprises stainless steel nozzle and the deflector

ROMER - Producent wysokiej jakości lakierni proszkowych

10. Single-phase motor power pump and blower
11. Flame Detector - photoresist
12. Degree of protection IP 40
13. Silenced air intake
14. Plastic housing

Characteristics

1. Powered by light fuel oil
2. Single-stage burner (on / off)
3. High pressure fuel atomization with nozzle.
4. Possibility of obtaining optimal combustion conditions thanks to air regulation and the head
5. No need to remove the entire flange for maintenance, the burner can be easily disassembled.
6. Manual flow adjustment
7. One flange and one insulating pad for connection to the exchanger
8. Air inlet manually adjustable with a deflector
9. Adjustable tube includes stainless steel nozzle and steel deflector
10. Single-phase motor powering the pump and blower
11. Flame detector - photoresist
12. Degree of protection IP 40
13. Quiet air intake
14. Plastic housing
